

We consider infant formula with critical eyes

About MIDA-REAL

The MIDA-REAL GmbH was founded in Germany by four fathers out of the desire to develop healthy and ethically correct infant formula without compromise in excellent quality and furthermore to offer the products internationally for a fair price.

The founders of MIDA-REAL are successful entrepreneurs of various sectors and due to Michael Tremer, who operates in the field of immunoregulation with colostrum active ingredients, also in the production of natural remedies.

But first and foremost, they are all fathers and aware of their responsibilities to children. However, the idea of developing high-quality infant formulas arose from a customer's request for these products and subsequent market and product analysis as well as the recognition of serious quality defects of the products of the most market participants.

The philosophy behind MIDA-REAL is very simple:

Ensuring the highest quality through a much stricter, analytically based quality management, starting with the raw material suppliers, suitable production and not ending with migration-inhibiting packaging to offer ethically correct products.

/// Quality occurs from quality management and therefore the demands and specifications of MIDA-REAL go far beyond the legal requirements and guidelines ///

Premium Grade Infant Formula

Ingredients:

Formula 1

Skimmed Milk, desalinated whey powder, vegetable Oils (palm, rapeseed sunflower), lactose, emulsifiers soya lecithin, calcium carbonate, potassium chloride, calcium salts of orthophosphoric acid, sodium citrate, vitamin mixture (vitamin C, niacin, pantothenic acid, vitamin E, vitamin A, thiamin, vitamin B6, riboflavin, folic acid, vitamin K1, biotin, vitamin D3, vitamin B12) potassium citrate, L-tyrosine, magnesium carbonate, taurine, L-phenylalanine, ferrous lactate, L- tryptophan, zinc oxide, cupric sulphate, zinc sulphate, potassium iodate, manganese sulphate, sodium selenate.

Formula 2

Skimmed milk, desalinated whey powder, vegetable oils (palm, rapeseed sunflower), starch, glucose syrup, lactose, calcium carbonate, emulsifier: soya lecithin, potassium chloride, calcium salts of orthophosphoric acid, sodium citrate, potassium citrate, vitamin mixture (vitamin C, niacin, pantothenic acid, vitamin E, vitamin A, thiamin, vitamin B6, riboflavin, folic acid, vitamin K1, biotin, vitamin D3, vitamin B12) L- phenylalanine, magnesium carbonate, L- tryptophan, ferrous lactate, taurine, zinc oxide, cupric sulphate, zinc sulphate, potassium iodate, manganese sulphate, sodium selenate.

Formula 3

Skimmed milk, lactose, vegetables oils (palm, rapeseed, sunflower), maltodextrin, desalinated whey powder, calcium carbonate, sodium citrate, calcium salts of orthophosphoric acid, natural bourbon vanilla flavor, vitamin mixture (vitamin C, niacin, vitamin E, pantothenic acid, thiamin, vitamin A, vitamin B6, riboflavin, folic acid, vitamin K1, biotin, vitamin D3, vitamin B12), magnesium carbonate, ferrous lactate, L- tryptophan, zinc oxide, cupric sulphate, potassium iodate, manganese sulphate, sodium selenate.

No boiling required

Protect active proteins by not heating the infant formula above 40 ° C.

**MIDA-REAL is your partner
for your infant formula
production.**

**We produce your private
labeled product according
to your local regulatory
requirements and to our
strict quality management
made in Germany.**
